The true circulation was more than above as during the absence of the Librarian, many books went to the school without being recorded.

Of the books from the Dover Library, many were Non-Fiction.

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of South Hampton, New Hampshire qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the twelfth day of March, 1955, at three o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums

as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9. To see if the Town will authorize the School Board to enter into contract with out of state high schools and-or in state public academies for the purpose of educating high school pupils residing in town. Such contract being required by the State Department of Education.

10. To see if the District will authorize the School Board to make application for and to receive, in the name of the District, such advances, grants-in-aid or other funds for educational purposes as may now or hereafter be forthcoming from the U. S. Government and-or State Agency.

11. To transact any other business which may legally come before this meeting.

Given under our hands at said South Hampton, this Twenty-sixth day of February, 1955.

Superintendent's Annual Report

To the School Board and Citizens of South Hampton:

I herewith submit to you my first report as Superintendent of your schools.

The school year began Wednesday, September 8, 1954, with an initial enrollment of 48 pupils. While this registration does not appear excessive, the large number of pupils in the lower room presents a problem. Thirty-one pupils in four grades is an unusually heavy load for a teacher. It is also a handicap that the room is really too small to accommodate this number of pupils.

South Hampton has a school of which we may all be proud. Your children, more than any school of which I know, are being taught on an individual basis. Your teachers are adept at analyzing each child, determining his strengths and weaknesses and basing their methods of approach to the various subjects upon the child's interests and development. It is always a pleasure to visit South Hampton. The children consider the school as their school. They are proud of good work. They understand what they are doing and can interpret the value of their work to others. This is the test of good instruction.

Reports from the schools which your last year's graduates are attending show consistently good work on their part, with all pupils doing average or above average work—in two instances especially good work is rated. Particular comment has been made as to the earnestness with which your graduates work and the interest in regular attendance and effort.

The South Hampton P. T. A. is working with the schools in a most helpful way. Its purchase of a film strip

machine has made available to us the film library of the Union. We believe visual presentation is of real value in teaching the subjects of study. Our teachers are using the library in an efficient manner. The service of the P. T. A. members in taking care of the little ones on the playgrounds is much appreciated. Such help allows the teacher to devote her whole time to the work of the other grades during this period.

By legislative action, Union 21 was granted a Helping Teacher. He is a full-time employee of the Union serving throughout the calendar year. His work has proven of great value to the teachers of the Union. The teachers feel free to bring their problems to him and to talk over any situation which may be a handicap to efficient teaching. Mr. Sherman Lovering, a graduate of Keene Teachers' College and holding a Master of Education Degree from Boston University, was the unanimous choice of the Supervisory Union Board. A former principal of an elementary school in Manchester, New Hampshire, he is familiar with the problems of the elementary grades. The State Department of Education pays \$2,500 of his salary, the remainder being divided among the seven towns of the Union.

The Supervisory Union was pleased to welcome Miss Olga Sarmiento, a visiting teacher from Mexico. She is one of a group of experienced teachers from other countries studying American education on the elementary level. She visited every district in the Union, attended teachers' meetings and several board meetings. Both teachers and children enjoyed her visits during the five weeks she was with us.

I urge the people of South Hampton to consider the advisability of larger accommodations for their children. Before too long, a third teacher must be employed since there seems no possibility but what our enrollment will continue to increase. When entering classes are smaller than graduating classes, increased registrations are inevitable. The means by which this third group can be ac-

commodated will require considerable planning. Let's consider the possibilities at our annual meeting.

That the people of South Hampton may know how their school dollar is spent, the following data has been established. Figures are taken from statistics of the year 1953-1954, the last completed school year.

Barnard School is a pleasantly busy school. The pupils are citizens of their own little community. As such they welcome all parents and citizens to their school. For their welcome to me in the first year of my service, for a helpful school board, and for the friendly greetings of the citizens, I am grateful.

Report of Music Teacher

To the Superintendent and School Board
Citizens of South Hampton

Music is unique and extremely valuable in that every child, regardless of mental, physical or emotional handicaps can, by every virtue of the breadth of the field, make some contribution. Every pupil can have the experience of success because so many different activities are involved under the heading of "music." I have tried to incorporate as many of these activities as is possible in our school here in South Hampton. Among these activities are singing, listening, rhythmic activities, folk and square dancing, rhythm band, and participation in homemade instruments.

We are most fortunate in having the use of the Autoharp which was purchased last year. Many informative hours have been enjoyed with this unusual instrument. We also appreciate the purchase of new singing books from which the upper grades have derived a great deal of pleasure.

I would like to express my sincere appreciation at this time to the most cooperative teachers, pupils and parents who have made my first year a success.

Respectfully submitted,

SARA JANE CUMMINGS,
Music Supervisor.

Guidance Director's Report

To the Superintendent of Schools, Members of the School Board, and Citizens of South Hampton:

It is with pleasure that I submit to you my third annual report as Director of Guidance.

The choosing of a career and the planning of their education with that goal in mind is one of the most important decisions that our pupils will ever make in their lifetime. It is the philosophy of those of us who are in Guidance work that there is a fitting vocation for every boy and girl, one to which his or her aptitudes are well related and in which that student may discover the satisfactions of achievement and self-realization, and that, further, each individual boy or girl should be provided with the opportunity, the incentive, and the time to make this choice wisely with the help of adequate information about himself or herself and adequate information about the vocation in which they are interested.

Through our program of guidance services—the setting up of the Individual Inventory for each pupil, the testing of each pupil with the University of New Hampshire Occupational Guidance Tests, the Occupational Information file, and the individual counseling sessions with the Guidance Director—the twenty-two students of South Hampton reaching the stage in their lives when they must make that decision have had these very important advantages.

There is already among our students, extending even down into the seventh grade, a wiser and more mature attitude toward the choosing of their careers. It is needless to state that when a vocational career is chosen early school becomes more purposeful.

The testing program covering the 4th and 6th grade pupils was accomplished early this year. Mrs. Currier did the testing. The results of these tests measuring the attainment of reading, arithmetic and language skills by our pupils indicate the excellent job our teachers are doing.

These tests, along with the individual tests, are helping to provide for us a more complete picture of the pupil—his academic ability, his special aptitudes and his weaknesses, his interests, and his personality. We can then see more clearly and provide for his needs. We are directing our attention this year to those students who may not be reaching a desired standard in reading. During the current months of this year we are planning on steps which will help those students to become more proficient in this all-important skill.

We are spending this year about forty per cent of our time in developing our Elementary Guidance program. In this program we work with the pupils in the earlier grades from the first up. Because of difficulties which may arise in the early years of their school life, a poor attitude toward school may develop. The techniques of Guidance are techniques by means of which these pupils may be taught to adopt as their own those habits of mind and emotion which will result in a more healthy attitude.

The Child Study course for parents, which last year met in Newmarket, will meet this year in one of the towns closer to South Hampton. It is hoped that many of the parents will attend these meetings.

This Child Study course for parents is one of the areas of the Guidance program which we are trying to develop and to which we look forward in the future with a great deal of hope. It is a long-term project and we are much encouraged by the response to the course by the parents, especially by the fact that so many have told us that they feel that they better understand their children because of knowledge agained in the course.

In closing I would like to say that because this is a Pilot Program in Guidance and the first to be tried in New Hampshire on a Union basis, there has been a good deal of attention centered on it both by other school systems interested in guidance for their own pupils and by officials of the State Board of Education. The comments made by these educational leaders have been encouraging. For my part, I would like to say that I feel that a large part of the success of the program is a result of the extremely high order of cooperation given it by the Superintendent, the members of the School Board, the teachers, and the parents of South Hampton. For this cooperation I would like to express my sincere thanks.

Respectfully submitted,

JOHN A. SCANLON,

Director of Guidance.

Health Supervision

To the Superintendent of Schools, School Board Members, and Citizens of South Hampton:

It gives me pleasure to present this, my second report, to you.

Health functions are continuing as before, with full cooperation from parents and teachers. It is because of this cooperative spirit in your community that I find it a real pleasure to work with you.

Much of the school nurse-teacher's work is dependent upon teacher observation. Through working in close relationship with them, we can more readily attain the objectives of the school nursing program. These are primarily to provide learning experiences for the child, not only that he may become more self-directing in matters relating to his own health, but also that he may become more aware of his responsibilities to others.

This year the N. H. State Department of Education has published its first guide for a school health program. A copy has been sent to the School Board and to your school. I hope everyone will acquaint himself with the contents of this manual, not only to become aware of recent trends in school nursing, but also that we may all work together to attain the highest health goals for our children. It cannot be stressed too strongly that if a child does not have good health, he is not a whole person, and therefore cannot possibly achieve the goals that his potentialities would otherwise allow him to achieve.

Because of this, I would like to insert several suggestions, the fulfilling of which would help us who are working for good health in all our children. First. I would.

like to see a physician obtained for the school. This could be a simple matter in relation to expense to the town, and time expended by a doctor, and yet be of great value to the well-being of your children.

Second, I should like to see a hot lunch program initiated in your school. One has but to see the results of these programs in schools where they are already established, to realize their value.

Third, from a long-range view, if there is to be any change in school housing, such as a new building, or an addition to the present one, I cannot emphasize too highly the need for a separate health unit.* Several reasons for this are as follows: 1. Privacy is so important to the individual child that when the mechanics of the work are being carried out, he is better able to perform without self-consciousness. This results in a more accurate test finding. 2. There is less confusion and interruption of the classroom work, and 3. the school nurse-teacher can do her work more efficiently, the end result, of course, being that she can accomplish more for the children.

In closing, I should like to thank all who have helped in making the school nursing program successful.

Respectfully submitted,

CONSTANCE J. HUSS, R. N.,
School Nurse-Teacher.

* Plans and recommendation for the same may be obtained from the State Department of Education in Concord.
